

These bags have following advantages:

- The packing looks impressive, even the product inside looks appealing to the customers
- The Shopping Experience of the customers is more delightful. The customers find these bags convenient in terms of time saving. They prefer to pick and carry already weighed and packed bags instead of packing themselves
- Fruits and vegetables remain fresh for a longer duration of time...
- These bags can be stored as it is in the fridge.
- The net bags are reusable for the customers in their respective homes.

Due to all these advantages, the customer prefers to buy vegetables and fruits packed in leno and net bags. Thus if these bags are used to pack the above mentioned items, the sale of malls/Hypermarket grows tremendously.

Bags for all your packaging need

Shakti Leno

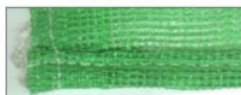

Shakti Leno

Benefits

Excellent air permeability (storage life of onions and potatoes is increased up to 50%)
 Good tensile and burst strength
 Lighter in weight than jute hence transportation cost will be lower (Jute bags of similar capacity are 3 times heavier than leno bags)
 Cheaper in comparison to jute bags
 Reusable, however, number of cycles depends upon the material packed, storage, handling and other relevant parameters
 Do not impart any odor to the packed contents (better organoleptics)
 Not attacked by fungus, insects and rats
 Resistant to corrosive chemicals
 Safe in direct contact with food products and do not cause physical contamination.
 Can be reprocessed
 Clean and better aesthetics
 Easy visual inspection of contents packed is possible in leno bags.
 Jute production is almost stagnant and there is scarcity of jute bags, whereas, polypropylene is abundantly available

Drawtape

Plain Chain Stitch

Shakti Mats

Benefits

1. Washable, can be cleaned with a hose.
2. Light weight and folds down to a very compact size for easy storage and portability.
3. Very economical.
4. Does not fade in the sun.
5. Does not attract Mildew.

Shakti Nets

Benefits

Single flat fabric of various widths and continuous lengths.
 Agrishade™ are high quality flat tape shading nets that can be custom knit to your requirements.
 Wide range of shading factors.
 Available with accessories (draw string, clips)
 UV stabilized for 5 years. Customer specific customization of UV stabilization factors is also produced.
 Chemically inert fabrics.
 Strong flexible and easily spreadable.
 Light spectrum management for enhancement of crop growth patterns

Shakti Bag

Monofilament Circular Net Bag

Benefits

Excellent air permeability (improves storage life of garlic)
 Lighter in weight than jute hence transportation cost will be lower (Jute bags of similar capacity are 3 times heavier than leno bags)
 Cheaper in comparison to jute bags
 Reusable, however, number of cycles depends upon the material packed, storage, handling and other relevant parameters
 Do not impart any odor to the packed contents (better organoleptics)
 Not attacked by fungus, insects and rats
 Resistant to corrosive chemicals
 Safe in direct contact with food products and do not cause physical contamination.
 Can be reprocessed
 Clean and better aesthetics
 Easy visual inspection of contents packed is possible in leno bags.
 The selvage gives natural and good finish and the bags made of this fabric do not need top hemming.
